

Quarterly Activities Report For the quarter ended 30 June 2020

- COVID-19 Impact on the business mitigated by increase in recurring revenues
- GMs OnTRAC CTP/CTA subscription base averaged 64k vehicles per month for the quarter
- Total Q4 revenue consistent with prior quarters at \$1.8m
- Significant ongoing customisation and improvements to the OnTRAC program
- Cash receipts of \$2.9m and an unaudited net profit after tax of \$447k for the quarter
- Increase in working capital position to \$3.4m

Melbourne Australia: Connexion Telematics Ltd (“**CXZ**” or the “**Company**”) is pleased to provide an update on its activities and cash flows for the quarter ended 30 June 2020 (Q4 FY20).

COVID-19

As reported last quarter, COVID-19 has presented an unexpected and significant challenge to the economy and our priority remains ensuring the safety of our staff, suppliers and supporting General Motors (“**GM**”) and its Dealership network. Despite the economic impact of COVID-19, CXZ continues to perform strongly with a strong pipeline of ongoing consulting work and increasing recurring revenues from GM. CXZ is uniquely positioned, which has assisted in largely mitigating the impact of COVID-19, as its primary revenue source is based on the maximum number of vehicles managed online, which has marginally decreased from an average of 72k to 64k vehicles per month, as a direct consequence of COVID-19. Revenues were slightly down as a result of 11% strengthening of the Australian Dollar during the quarter.

CXZ remains debt free, generating recurring revenues with good margin.

Operations Summary

The Company delivered a strong set of quarterly numbers against a backdrop of economic uncertainty that unfolded during the quarter with COVID-19. The Company continues to provide its Software as a Service (SaaS) solution for the Courtesy Transportation Program (“CTP”) and Cadillac Courtesy Transportation Alternative (“CTA”), OnTRAC for GM.

OnTRAC vehicle subscriptions via the GM dealerships averaged over 64k vehicles for the quarter, which is a decrease from an average of 72k vehicles for the March 2020 quarter. The decrease is a direct result on Covid-19 and various lockdown measures imposed. As more customisation work, driven by the 4,000+ Dealer Network, drives further modification requirements, the recurring revenues from both the OnTRAC program together with new recurring revenues continues to increase.

The Company recognised total revenues of \$1.8m which included customisation improvement works for GM of \$287k. The program has been strongly adopted within the GM B2B dealer business system. The Company is working with GM through ongoing customisation and improvements work to the OnTRAC program.

The Company is confident of receiving further customisation work requests, as demonstrated in Q4 and year to date. A number of ongoing modification and feature enhancement requests for the OnTRAC program are ongoing.

The financial position and performance of the Company continues to strengthen, building on the positive momentum achieved in the previous quarters. The Company continues to be profitable and cashflow positive. The Company has identified a growth strategy which commenced in the quarter. This will result in a Business Development Manager being sourced to lead the US operation and gain the maximum return from the existing and potential customer base in delivering equivalent OnTRAC programs.

The Company believes that the OnTRAC revenues are expected to continue and is expecting subscription numbers to be in the range of 56K – 58K per month, generating revenues ranging from 418k-434k per month. This does not include customization improvement works for GM, as noted above.

Financial Position

The Company’s cash receipts for the quarter totaled \$2.9m, which resulted in a closing cash position of \$2.4m as at 30 June 2020 (31 March 2020: \$1.5m).

The Company’s working capital position remains strong, with a 4% increase from the prior quarter to \$3.4m. The Company recorded an unaudited net profit before tax of \$447k for the quarter.

Q4 FY20 featured steady activity allowing the Company to optimise its operating costs while exploring other revenue opportunities that may exist for its products across the 4,000+ GM and Cadillac dealers network.

Costs for Q4 FY20 include \$264k (Q3 FY20: \$262k) on salary and wages and \$240k (Q3 FY20: \$283k) in general overheads. The Board continues to rationalise costs to enhance the Company's profitable and cashflow positive financial operating performance.

Details in respect to payments to related parties or their associates as detailed in Section 6 of the attached Appendix 4C are as follows:

- Payments totaling \$9,033 (incl. GST) were paid to Mine Site Construction Services Pty Ltd, a company related to Mr Mark Caruso, for directors' fees and superannuation on directors' fees.
- Payments totaling \$1,940 (incl. GST) were paid to Dominion Legal Pty Ltd, a company related to Mr Robert Downey, for the provision of legal services.

Corporate

As announced on 18 May 2020, Mr Guy Perkins resigned as Managing Director and CEO of the Company, effective 24 June 2020.

The Company's stabilised financial and operating performance will now allow the Board to focus on recruiting key personnel within the US and within Australia to better exploit the Company's position in the telematics space. Whilst such recruitment is taking place, Mr Aaryn Nania, an existing director of the Company, will fill the position as Acting CEO to ensure the Company continues to deliver in accordance with its plans.

Outlook and COVID-19

Whilst CXZ has currently been impacted by COVID-19, those financial impacts are somewhat mitigated by the primary revenue source being based on the maximum number of courtesy vehicles managed online, and not directly linked to sales. Whilst the number of sales of vehicles in a given month have been affected due to COVID-19, at this stage, the CTP/CTA OnTRAC program continues to run normally.

Car Dealership are considered essential service in the US and will remain open. However, due to COVID-19, we would expect to see some impact to the number of vehicle usage on the program.

The Company continues to build on its flagship OnTRAC SaaS CTP/CTA program solution within the GM 4,000+ dealership network. The OnTRAC program currently has over 10,000 unique users accessing the system which consolidates its use across the GM dealer network.

The Company expects that revenue via ongoing optimisation and customisation work currently in hand will continue to drive both consulting and new recurring revenues.

The Company continues to actively pursue opportunity for growth within the current GM dealership network, as well as actively looking at external applications to other manufacturers and vehicle dealerships within the USA and Australia.
